

AMENDMENT TO THE SPECIFICATION

Please amend Paragraph [0002] as follows:

[0002] The present application claims priority to co-pending U.S. Patent Application Serial No 10/241,542 filed on September 11, 2002, and issued as U.S. Patent Number 6,660,308, on December 9, 2003.

[00010] The perioperative multivitamin protein bar preferably has from about 200 mg to about 2000 mg of protein. Examples of proteins contemplated are whey proteins, soy or vegetable protein, urea, caseins and calcium caseinate, sodium caseinate protein, legume proteins, blue green micro algae proteins, nut and seed proteins and fish and animal proteins derived from eggs, meat or milk and combinations thereof. Blue-green micro-algae form spiral filaments or chains that as a dietary supplement that contain 65% protein in the dried state.

Applicant believes that no new matter has been added with these amendments.
